PURPOSE

Innovative Programmer and Internet Entrepreneur striving to make the world a more unified and connected place. A creative thinker, adept in software development, and working with various data structures.

EMPLOYMENT HISTORY

- Currently working in *AAVAS Financiers* as IT Manager
- April 2016 - March 2018 with *Axestrack Vehicle Tracking Solution* as Software Developer -II
- June 2015 - April 2016 with *JbIT Service LLP* as Android Developer

ACHIEVEMENTS

Being an OpenSource Enthusiast, I have made some open source contributions.
According to *GitAwards*, my ranking is

- Top *15* in India and top *400* worldwide in Kotlin Open Source Development
- Top *22* in India and top *1000* worldwide in Java Open Source Development

In the last 5 years, I've created many Mobile and Web-driven software on various technologies, and have worked with microservices architecture and create projects from scratch on the same, implemented Continuous Integration / Continuous Development with DevOps & more.

Some of the technologies I've worked on are

SpringBoot, Android SDK, Docker, Kubernetes, Jenkins, Vuejs, MongoDB, MySql, & more.

In terms of performance in my current company, I've been consecutively receiving a yearly 5 Star rating and also received a letter of appreciation for outstanding performance in my last company which is given every year.
